The opportunity to hone and craft my skills as an electrician is very appealing to me. My hope is that my professional and personal skills bring something valuable to the workplace.

## EXPERIENCE

**2016 – 2022**

### **CONTRACTOR, C & A CONSTRUCTION**

In this role I interacted and worked with clients to organize, plan and finish projects. Projects ranged from wood working and cabinetry to full room additions, including light residential electrical work that passed inspection.

**2013 – 2015**

### **TECH CUSTOMER SERVICE, T-MOBILE USA**

In this role I would assist customers with technical issues relating to their phones or services. I also held internships in new associate education and team management where teams would on average improve 10% per month during my leadership.

## EDUCATION

**2009**

### **HIGH SCHOOL DIPLOMA, CAMDENTON HIGH**

General Highschool Degree

**2011**

### **CHEMICAL, BIOLOGICAL, RADIOLOGICAL & NUCLEAR DEFENSE, USMC CBRN SCHOOL.**

Trained and equipped to handle CBRN threats.

## SKILLS

- General understanding of residential electrical work and code.
- Skilled in customer interactions and education.
- Strong work ethic.
- Good at problem solving.
- Quick learner.

## ACTIVITIES

Miniatures painting art: Painting small 4–5-inch sculptures this requires attention to detail and fine motor skills. I regularly teach others fine arts skills including color composition and brushwork. These skills would be beneficial when clients need assistance with stylistic recommendations.

Reef Aquarium Hobby: 2 years of keeping live coral and tropical fish. This hobby requires understandings of light, biology, and automation to maintain.
